ST. JOHN McDONALD, the Blaine of Canadian state affairs, is no more.

The special grand jury is composed of Tombstone, a most substantial citizen.

The ranger bill is a dead letter. The Tombstone militia is the proper body to take its place.

The testimony in the baccarat case shows up English aristocracy in a rather disgraceful way, both regarding honor and sobriety.

A DISPATCH from Iqueque says that in consequence of Bolivia's recognition of the Chilean Congressional party as belligerents, the Chilean minister at Lapaz demanded his passports.

THE Shufelt distilleries at Chicago have at last yielded to the pressure of the whiskey trust and have sold out to that gigantic corporation. The price is supposed to be about two million dollars.

It is reported that Governor Steele of Oklahoma has been offered the position of commissioner of pensions by President Harrison. Gov. Steele is an Indian, and was appointed Gov. by the president.

THURSDAY, at the New York barge office 23 emigrants were sent back to Europe by federal authorities. They were all without money and liable to become public charges. One claimed to have been assisted to come by government agents in Ireland.

SOME one rises to remark that if Uncle Sam does not give the Apaches a fair show, he treats the white folks in southern Arizona no better.

THE American eagle is now in training for a good old-fashioned scream on Independence day, which will be heard from Maine to California and from Alaska to Florida. Is not Tombstone to be in it?

During the Baring panic in November last the Bank of England was forced to become a borrower from the Bank of France of 3,000,000 pounds. The Bank of France was able to advance this sum only on account of its liability, through its charter, to pay out silver as well as gold when its notes are presented for payment.

A FRENCH syndicate has taken hold of silver with idea of booming it in America. The plan of the syndicate is believed to be as follows: It is thought the stock of silver held here represents a large part of the whole floating surplus. England's large stock has been sent to Japan, India and China. The whole production of this country is used up by the government in melting its legal requirements for coinage and by the arts. Hence if Europe needs more silver, the syndicate here controlling practically the larger part of the floating supply, will be in a position to dictate the price of which it will part with it. It is thought also as election time approaches, the West will renew the silver agitation and another effort in the next congress to put through a free coinage bill. Silver went up to \$1.20 last year on a similar expectation and if the bill becomes a law it will probably reach that figure again. Another point the syndicate is supposed to be calculating on is that the recent and present trouble in Europe will force the gold-standard countries to adopt a bi-metallic standard.

Consumption cured.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, and a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp naming this paper. W. A. Noyes, 820 Power's Block, Rochester, N. Y.

A prominent physician and old army surgeon in eastern Iowa was called away from home for a few days; during his absence one of the little children contracted a severe cold and his wife bought a bottle of Chamberlain's Cough Remedy for it. They were so much pleased with the remedy that they afterwards used several bottles at various times. He said, from his experience with it, he regarded it as the most reliable preparation in use for colds, and that it came the nearest being a specific of any medicine he had ever seen. For sale by H. J. Peto, Druggist.

It will take about eighteen months to complete the line to Phenix. The line from Ash Fork to Prescott will be about 25 miles shorter than the P. & A. C. from Prescott Junction. In looking over the record of inquests held in Cochise county since its foundation, there is no record of where Justice Shearer had ever held an inquest on the bodies of the three dead persons near William's Springs although many persons believe he did hold such an inquest. An item of interest was found there however in the fact that 223 inquests have been held in the county up to date. This is a small number for a county as large as Cochise and represents ten years of frontier life.
